

# 1. Save Money

By saving heat, chemicals, cleaning and extending equipment life, you can save up to 70% on operating costs.

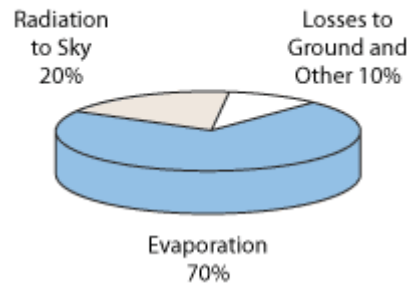

## 1.1 Save energy and heating costs

The Boree solar cover acts as a passive solar heater by capturing the sun's radiant heat. It reduces heat evaporation, keeping the pool warm when the air temperature cools off at night. This dramatically cuts down on heating cost while extending your swimming season.

### Indoor Pool Energy Loss Characteristics

### Outdoor Pool Energy Loss Characteristics

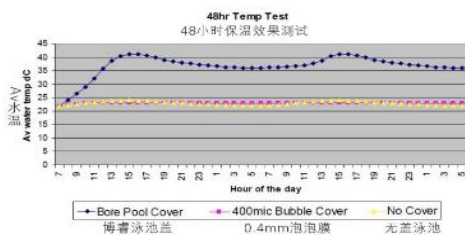

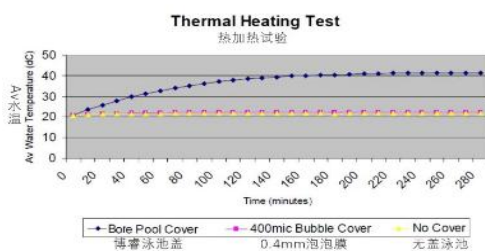

## 1.2 Reduce the use of water and chemicals

By reducing evaporation, Boree pool cover cuts water loss and reduces the use of chemicals. On indoor pools, your cover prevents evaporation, and in most cases, can eliminate the need for expensive dehumidification systems.

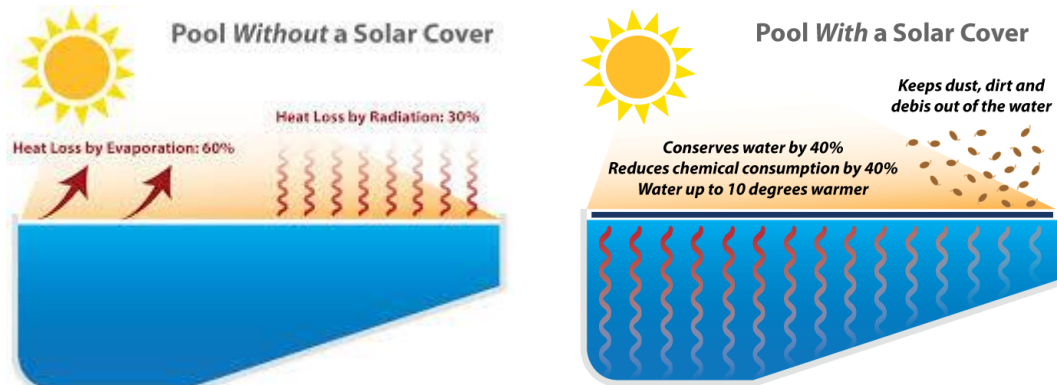

## 1.3 Get a more energy-efficient pool with a convenient cover

The U.S. Department of Energy has stated that a pool cover is the single best way to reduce heat loss on a pool. By limiting unnecessary evaporation, you'll save energy and still be able to enjoy swimming in a warm pool.

## 1.4 Collect solar energy

Pool covers act as a passive solar collector by capturing the sun's radiant heat. When a pool is covered, there can be a solar heat gain up to 10 to 15 degrees, making it less expensive to heat the pool.

## 2. keep Pool Cover Clean

Keep dirt, leaves and debris out by simply keeping your pool covered. The Boree pool cover reduces maintenance costs and keeps your pool cleaner.

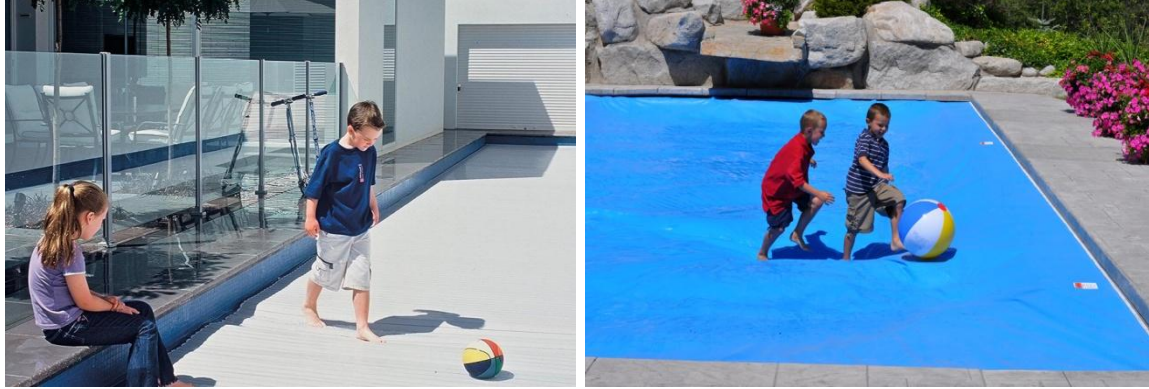

With the heat kept in, and with dirt and debris kept out, your pool equipment works less and lasts longer.

## 3. Save Lives

A safety pool cover offers numerous benefits for swimming pool owners, as a safety device, the cover acts as a horizontal fence, completely sealing off the pool and preventing accidental access to the pool water by children, pets, and uninvited visitors.

And while there's no substitute for proper supervision, your pool can be protected even when you're not around. It's the ultimate safety barrier that no pool should be without.
